Missouri Accreditation of Programs for Children and Youth
2012 Cherry Hill Drive, Rosewood Bldg., Suite 206 Columbia, Missouri 65203

Directions:

The Program Director/Administrative staff is responsible for ensuring that all staff know and understand the expectations of all the indicators. The expectation is that every staff member has a working knowledge of the accreditation process, policy and procedures, and the indicators. A team of staff members should complete the self-study using the one to three rating scale. This is the staff member's self-assessment of how the program meets the self-study indicators. It is the responsibility of the Program Director/Administrative staff to submit the self-study through the on-line MARIT system. If the application is accepted a MOA review team will evaluate the program site for compliance with each indicator.

The self-study should be scored using the rating scale of one (1) to three (3)

1- Indicator is met

2- Indicator is not met

3- Indicator is not applicable to the program

A program site must have a completed scored self-study for each of the following age groups served:

- Infant Toddler, birth-23 months
- Early Childhood, 24 months - 6 years
- School Age, kindergarten – 17 years
